

State of Alaska Division of Motor Vehicles Standard Operating Procedures	SOP No. T- 240	Page No. 1 of 1
	Effective July 1, 2006	
Subject:	Supersedes T-240	Dated 2/12/03
GLIDER KITS & KIT VEHICLES	Approved	
Statute:	Regulation: 02 AAC 92.080	Form No. 811, 812

Both Glider Kits and Kit Vehicles come with a Manufacturer's Certificate of Origin (MCO). The MCO will specifically state that the vehicle is a Glider Kit or a Kit Vehicle. If the applicant does not have an MCO, the vehicle must be titled and registered as a reconstructed vehicle (T-270).

A "Glider Kit" is used to restore or reconstruct a wrecked or dismantled tractor. All glider kits include a chassis (frame), front axle, and body (cab). The kit may also contain other optional components.

A "Kit Vehicle" is a kit that can be purchased to make a modern vehicle look like a vehicle that is no longer built. These are normally replicas of sports cars or motorcycles.

A motor vehicle constructed from a glider kit or kit vehicle is titled as a new vehicle.

TITLE REQUIREMENTS:

The applicant must provide:

- Manufacturer's Certificate of Origin (MCO)
- The original title from the previous vehicle or a bill of sale from the previous owner.
- Application for Title and Registration (Form 812) completed and signed in ink.
- Certificate of Vehicle Inspection (Form 811), for all Kit Vehicles.
- Certified weight slip (Glider Kits, only)

NOTE: Heavy Vehicle Use Tax is not applicable as a glider kit is titled as a new vehicle; however, you would need to enter "Y" for HV if the weight is over 8,000 pounds.

MAKEThe make of the vehicle as designated on the MCO. (i.e. Kenworth, International, White, Austin-Healy, etc.)

YEAR.....The year of the vehicle as shown on the MCO.

MODELKIT

BODY STYLEUse the most appropriate body style found in Appendix C.

VINThe VIN as shown on the MCO is used as the primary VIN. Use the VIN from the previous vehicle as a secondary VIN.
